One Color Usage

In the case where color (or more than a single color) isn't possible , a single-color logo can be used.

However, the single-color logo must only be used in black and white colorways, as displayed below.

Space Around the Logo

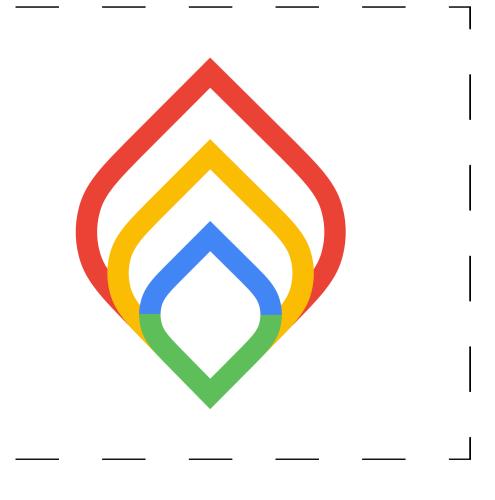

For maximum readability and visual impact, the logo must be surrounded by an appropriate "clear zone."

The "clear zone" is the area that visually separates the logo from all other graphic elements that might cause visual clutter.

No copy or graphics are permitted in this area.
